The following is an examiner's statement of reasons for allowance: the prior art of record fails to anticipate or make obvious the method and apparatus for class based queuing, wherein for a particular class, packets within the shared queue having a particular set of bits are counted and a determination as to whether to drop packets prior to entering the queue is based on the congestion algorithm corresponding to a bandwidth associated with the set of bits in the packet.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
